

Amy Eisner of New Beginnings helped me to understand what was happening at these meetings. All I know is that no one would listen to me. Amy came to my PPT and took command of the room. She used her quick wit and sense of humor which really helped to ease the tension. Amy advocated for my son with her whole heart. She left no stone unturned. My school did not want to give my son the label, but Amy got us that and speech and language services too. She was awesome!

Amy was professional and polite at all times, however she was always prepared for the snide remarks coming from the other side of the table. I would recommend Amy to anyone who is having trouble getting help for their child!
